

To whom it may concern,

Date:

This is a declaration of religious exemption for vaccination (often termed "immunization" by mainstream institutions) of my child, according to our family's sincerely held religious beliefs, and in accordance with Title VI of the Federal Civil Rights Act, protecting religious freedom which requires the institutions through the Department of Education to accommodate persons with those religious beliefs that are "sincerely held," including belief, observance, and practice.

The 11th section of my belief's Articles of Faith states, "*We claim the privilege of worshipping Almighty God according to the dictates of our own conscience, and allow all men the same privilege. Let them worship how, where, or what they may.*"

I believe that an unborn child's life is sacred and find abortion morally reprehensible. I cannot support or justify supporting the original abortion or testing on the tissue of an innocent child, born or unborn. I will further address this issue (and others) below.

My belief is that humans were sent to this earth by a God that intended us to have agency to choose for ourselves, what we do with regard to our mortal bodies.

I believe that as such, a mandate/requirement by any person or institution is a tyrannical overstep and violates my God given right to decide for myself & my children how we treat the bodies we were given while on this earth by our Father in Heaven.

I appreciate information that allows me to choose the best course for me & my family in accordance with my faith. But instead, these mandates/requirements are an attempt to force me to take action on my child's body that goes against my conscience.

The Bible very clearly states that the body is the Temple of the Holy Spirit. We are commanded to take good care of it, and not to defile it.

Please refer to 1 Corinthians 6:19-20, 2 Corinthians 5:10, and 2 Corinthians 7:1, Proverbs 6:16-17.

Leviticus 11:47 tells us to *make a difference between the unclean and the clean...* and the Bible also outlines the fact that *God created the body both "Fearfully and wonderfully."* Psalm 139:13-16.

In my faith's further scripture of Doctrine & Covenants, which lays out our code of health and outlines taking pure & natural substances into the body, it states,

*“Behold, verily, thus saith the Lord unto you: In consequence of evils and designs which do and will exist in the hearts of conspiring men in the last days, I have warned you, and forewarn you, by giving unto you this word of wisdom by revelation... And all saints who remember to keep and do these sayings, walking in obedience to the commandments, shall receive health in their navel and marrow to their bones; and shall find wisdom and great treasures of knowledge, even hidden treasures; and shall run and not be weary, and shall walk and not faint.”*

*We are taught through this health code, that we “should not use any harmful substances”... thus further confirming my responsibility to God, to avoid products that blatantly fit this category, and to continually work toward avoiding any and all other harmful substances that I may learn of in the future.*

These vaccines (by the very disclosure of the vaccine manufacturers themselves) contain carcinogens, neurotoxins, animal viruses, animal blood, allergens, heavy metals, genetically modified organisms, experimental substances, and in many cases aborted fetal cell debris.

In 2011, the U.S. Supreme Court agreed with Congress's conclusion in 1986, that: vaccines are “unavoidably unsafe.” In addition, taking vaccines which contain toxic & genetically modified ingredients, actually makes modifications to the body through the introduction of foreign substances, thus constituting an attempt to superfluously modify the internal mechanisms of the human body.

This, in essence, would be trying to improve or alter what God made perfectly (literally assuming the position of God), which is clearly a sinful practice.

Again, this utilization constitutes an unbiblical practice by altering and/or harming the body, ESPECIALLY through means of injection (which enters the bloodstream), which is an unnatural mechanism for introducing [toxic] ingredients into the body and tainting the blood, our lifeline.

Partaking in a vaccine produced with and/or made from aborted fetuses makes me complicit in an action that offends my religious faith. As such, and in addition to the toxic ingredients & excipients they all contain, I cannot, in good conscience and in accordance with my deeply held religious beliefs, allow my family (ie: my child) to participate.

In addition, any coerced medical treatment goes against my religious faith and the right of conscience to control one's own medical treatment, free of coercion or force.

Equally, compelling any person (student) to take any vaccine, subjects the school/institution to substantial liability risk, including liability for any injury the student may suffer from any vaccine, now or in the future.

Three important points:

*First*, informed consent is the guiding light of all medicine, in accord with the Nuremberg Code of 1947.

*Second*, the Americans with Disabilities Act proscribes, punishes and penalizes employers who invasively inquire into their employees' medical status and then treat those employees differently based on their perceived medical status, as the many AIDS related cases of decades ago fully attest. As such, Title II of the ADA applies *specifically* to educational institutions, requiring them to make educational opportunities, extracurricular activities, and facilities open and accessible to all students. The ADA applies equally to public and private sector institutions.

*Third*, international law, Constitutional law, specific statutes, and the common law of torts all forbid conditioning access to employment, education or public accommodations upon coerced, invasive medical examinations *and treatment*, unless they can fully provide objective, scientifically validated evidence of the threat from the person in question, and how no practicable alternative could possibly suffice to mitigate such supposed public health threat and still perform the necessary essentials.

For instance, the symptomatic can be self-isolated. Hence, requiring vaccinations only addresses one risk: dangerous or deadly transmission, by the asymptomatic or pre-symptomatic person in the school setting.

This right to refuse any forced injections, including all vaccines, implements the internationally agreed legal requirement of Informed Consent established in the Nuremberg Code of 1947. <http://www.cirp.org/library/ethics/nuremberg/>

As the Nuremberg Code established, every person must "be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision."

Conditioning school attendance upon participation of medical procedures where manufacturer liability *does not* exist (as of The National Childhood Vaccine Injury Act of 1986) and demanding disclosure of private, personal medical information, may also create school/institution liability under other federal and state laws, including HIPAA, FMLA, and applicable state tort law principles, including torts prohibiting and proscribing invasions of privacy and battery.

Forced vaccines constitute a form of battery, and the Supreme Court long made clear "*no right is more sacred than the right of every individual to the control of their own person, free from all restraint or interference of others.*" <https://www.law.cornell.edu/supremecourt/text/141/250>

This information is a confirmation, that it is not only my right to not be subject my child to any vaccine, but also my duty as a Christian.

It is contradictory to my Christian faith; my personally & sincerely held religious beliefs. It is for these reasons that I am declaring, through the appropriate channels, and as a God given right, my freedom to choose not to have my child receive any vaccines.

With these thoughts being taken in prayerful consideration of what God has put into my heart, how can such a conscience be in error?

With Regards,

---
